

- Model risk quant with 11 years in banking, 9 of them validating credit, market, treasury IRR, and liquidity & funding risk models.
- Validation of high-materiality regulatory models — A-IRB, VaR/RNiV — and the regulatory deliverables around them; core contributor to the review work behind approval of 2 Pillar I models.
- Representing the Lombard Lending validation team in MRMC-wide AI initiatives and contributing to AI adoption within the team and across MRMC.
- Building AI tools for day-to-day validation work — agentic and LLM/RAG applications, with open-source projects on GitHub.

CORE SKILLS

Languages: Python, R, SQL, Scala, LaTeX	Credit Risk: PD and LGD (IRB), loss models (CST, CCAR), Pillar I/II
Market & Treasury Risk: VaR, SVaR, RNiV, IRR, liquidity & funding risk, Initial Margin	Regulatory: Basel IRB, CCAR, FINMA, NFA submissions, regulator presentations
AI/ML: Agentic AI, RAG, MCPs, LLM adoption in validation	

EXPERIENCE

Associate Director — UBS, Mumbai

Sep 2024 — Present

- Leading reviews of multiple Pillar I/II credit risk models in the Lombard & SBL business — PD, LGD, loss (CST, CCAR) and lending value models — including FINMA Type A material-change reviews; mentoring junior validators through reviews.
- Working on multiple AI initiatives to improve validation work:
 - Representing the credit risk team in working groups to test and adopt centrally developed AI tooling.
 - Built an agentic validation-scoping prototype that recommends further testing where model documentation does not demonstrate testing; demonstrated to a joint QRM-MRMC working group on agentic AI and to MRMC colleagues.
 - Demonstrated off-the-shelf AI tools cutting the time to perform and document sophisticated quantitative analyses.
 - Contributing to guidance on effective use of available AI tools — how-to, best practices and pitfalls.

AVP, Market Risk Model Validation — Morgan Stanley, Mumbai

Dec 2023 — Sep 2024

- Lead reviewer for VaR/RNiV models across asset classes; presented findings to regulators and senior risk committees; owned KPI/KMPI monitoring and breach challenge.
- Owned quarterly NFA regulatory submissions; line-managed analyst covering FX, Credit & Structured Products VaR/RNiV.
- Led an MRM-wide Book of Work planning initiative, improving effort-tracking across the function.

Associate Director — UBS, Mumbai

Jan 2020 — Dec 2023

- Validated IRB/Pillar I & II models (capital, loss, margin models); authored the submission packs behind FINMA approval of 2 RWA capital-planning models for loan portfolios collateralized with concentrations in equity, hedge funds and PE funds.
- Drove team adoption of the custom validation report-writing tools; supported graduate recruitment and onboarding.

Associate — MSCI, Mumbai

Jun 2019 — Jan 2020

- Wrote Scala code assessing the soundness of performance/risk attribution quant libraries for Barra One and Barra Portfolio Manager.

Senior Quantitative Analyst — CRISIL, Mumbai

Aug 2017 — Jun 2019

- Consultant to UBS model risk (1.5 yrs): validated treasury IRR, liquidity & funding risk, and firm-wide risk models.
- Reviewed non-regulatory credit and market risk models at Bank of America.

Analyst — Verity Knowledge Solutions (UBS ODC), Hyderabad

Jul 2011 — May 2013

- Investment banking analytics (DCF, relative valuation, M&A accretion/dilution) for TMT sector deals, UBS.

EDUCATION

M.Sc. Economics	2015 — 2017
Indira Gandhi Institute of Development Research (IGIDR), Mumbai RBI-funded advanced research institute.	
B.Tech, Electronics & Electrical Engineering	2007 — 2011
National Institute of Technology, Warangal	

CERTIFICATIONS
